D/E F2

FO F3

FO F2

Begin Improvements

LOS	Congestion/Delay	Traffic Description
D	Minimal to substantial	Approaches unstable flow. Heavy volumes, limited freedom to maneuver
E	Significant	Extremely unstable flow, maneuverability and psychological comfort extremely poor.
FO	Considerable 0-1 hour delay	Forced flow, heavy congestion, long queues
F1	Severe 1-2 hour delay	Very heavy congestion, very long queues
F2	Very severe 2-3 hours delay	Extremely heavy congestion, longer queues, longer stop periods
F3	Extremely severe	Extended stop periods
